REUSABLE BAG, ENERGY STAR 5.0
AND EPEAT SILVER CERTIFICATION

UP TO 8 GB MEMORY; OPTIONAL DISPLAY
PORT FOR DUAL INDEPENDENT DISPLAY;
OPTIONAL SSD

SLEEK DESIGN WITH A SPILL-PROOF
WIRELESS KEYBOARD THAT SLIDES
UNDER THE PC FOR MORE SPACE SAVINGS

Introducing Lenovo's first mainstream Edge All-in-One (AIO) with spectacular features for performance, productivity, and space saving. The Edge 71z delivers a competitive low price specifically designed for SMBs. The ThinkCentre Edge 71z continues the stylish fashion of the Lenovo Edge series, and includes reliability features and space savings to reduce costs. The Edge 71z liberates crowded offices from bulky desktops with tangled peripheral cables. This sleek and powerful AIO is set to enhance your business with class.

Elegant: Traditional desktops demand a lot of space and clutter offices, making multiple desktops a nightmare to maintain. The Edge 71z brings desktop-level productivity to the workplace while saving on space, more than even an ultra-small form factor. Place the Edge 71z on its feet, mount it on a wall, or swing it on an arm – it fits any work environment.

Efficient: The Edge 71z AIO delivers performance in a compact form, allowing SMBs to do even more. With up to Intel® Core i7 power efficient processors, you get the benefit of greater computing power with lower energy consumption. This performance is complemented by the optional SSD and up to 8 GB of memory adding both stability and speed. The Edge 71z is more eco-friendly than its predecessors enabling greater energy savings. Also the Edge 71z's reduced packaging contents means less material waste and lower environmental impact.

Convenient: Delivering superior productivity, the Edge 71z includes a 20" display for stunning, high-resolution visuals, along with an optional digital Display Port for Dual Independent Display. A safer spill-proof wireless keyboard slides under the AIO and the rubberized handle makes moving the PC from one location to another a hassle-free experience.

LENOVO ENHANCED EXPERIENCE 2.0 FOR WINDOWS® 7. FASTER AND OPTIMIZED FOR BUSINESS.

Lenovo Enhanced Experience 2.0 for Windows® 7 uses RapidBoot technology to start your PC on average 20 seconds faster than a typical Windows® 7 computer*. And with superior web conferencing and robust security features, you'll benefit from increased productivity at the office. Find out more at www.lenovo.com/win7ee

*Compares averaged data from Lenovo EE 2.0 PCs with averaged data from 42 competitor products of similar configuration. Testing conducted by CNET Labs, Beijing in November 2010, using the independent Microsoft VTS tool to measure start-up, shutdown, resume and other Windows® 7 performance measurements. Data from competitor and Lenovo PCs were averaged and compared to calculate the claims used. Performance will vary by model and configuration.

Lenovo® recommends Windows® 7 Professional.

lenovo® **FOR**
THOSE
WHO DO.

PERFORM WITH SMART TECHNOLOGY

- Uncompromised desktop-level performance, with up to 2nd generation Intel® Core™ i7 processors
- Better multitasking options with the Display Port output, for Dual Independent Display
- Large 20" display for the best picture clarity and a superior visual experience

INDULGE IN CONVENIENCE OF USABILITY

- Occupies significantly less desk space than traditional tower PCs
- Saves you even more desk space with a spill-proof wireless keyboard that slides under the AIO
- Can be moved easily around your work environment with the improved rubberized handle.

BENEFIT FROM A GREEN AIO

- Greater energy savings with low power processors
- Less packaging, which means less material waste when you change your PCs
- Packaged in a reusable green bag

SERVICE OFFERINGS
